

2.0 mm pitch/Wire-to-board (Crimp style/IDC style) / Wire-to-wire (Crimp style/IDC style)

The 2.0 mm pitch PA family consists of the following connectors:

- PA connector (Wire-to-board crimp style)
- PAF connector (Wire-to-board insulation displacement connection (IDC) style)
- PAL connector (Wire-to-wire crimp style) These features enabled a harness with complicated shape for the first time as a 2.0 mm pitch connector with secure locking mechanism.
- Secure locking device
- Interchangeable between crimp and IDC socket
- Secondary retainers
- Harness variation

PA connector (Standard type, Retainer mountable type)

- Highly reliable contact
- Insertion guide mechanism
- Flanged press pin

PAF connector

- The industry's first secure lock IDC connectors
- Metallic strain relief
- Retainer with four locking points

PAL connector

- The industry's first wire to wire 2.0 mm pitch retainer mountable type connector.
- Either with or without panel lock can be selected according to application.
